Improving the Health of
Children in Cambodia
funding: 8239.33
goal: 55000.00

Our beneficiaries will be orphaned children suffering from AIDS/HIV and other diseases and children with mental health problems whose parents do not know how to cope because they were deprived of family experiences by the forced separations of the Pol Pot regime. At the Nutrition Center in Phnom Penh, we will help urban orphans from brothels and hospitals that have abandoned them. At the Child Mental Health Center, we will help families, largely the working poor, from all over Cambodia.
